Pathways Program
MS Finance

The Pathways Program offers the opportunity for business professionals to take up to three courses in the MS Finance program before being officially admitted. This option is a good choice if you have not yet had an opportunity to take the GMAT or GRE or if you want to try out some courses to see if a UD business graduate degree is appropriate for you. Applicants must meet all admission requirements for the MS Finance program EXCEPT submitting a GMAT or GRE score.

Pathways Coursework

As a Pathways student you can take up to three classes (9 credits). The classes you take will become part of your academic record and will count toward your degree once you are matriculated as a regular student in the MS Finance program. If you are a part-time student taking evening courses, you should take no more than two courses in a semester.

It is recommended that Pathways students should focus on choosing courses from the following list:

- FINC851 Corporate Financial Analysis
- FINC852 Investment Analysis & Portfolio Management
- FINC855 Financial Institutions & Markets
- ACCT820 Financial Statement Analysis

*Or take pre-requisites, if required:

- ACCT800 Financial Reporting and Analysis
- FINC850 Financial Management

Pathways students are not permitted to register for FINC870, FINC871, FINC872 or ECON822.

How to Convert from Pathways

To convert from Pathways to the MS Finance Program complete the following steps:
Submit an official GMAT or GRE score to the University of Delaware.
Contact the MS Finance Program Director. Please include the following in your e-mail:

- Your complete legal name
- Date of birth
- Unofficial GMAT score
- Program you would like to convert to
  - MS Finance Full-time
  - MS Finance Part-time
  - Dual MBA/MS Finance
- Semester in which you would like to begin this new program

* Incoming students are expected to understand fundamental finance and accounting concepts. Prerequisite courses can be waived by students who have work experience or prior coursework in the area. Prerequisite courses do not count towards the 30 credits required for the degree.
